SUBJECT:

It seems to me that these people may be doing some work of a probing nature and that we ought to be well read in on this. Do you have any OSI contacts by which we can get informally aboard? If you wish I can get a hold of [REDACTED] of we can go through George to [REDACTED] if it is required. However, if it is not being too closely held, we ought to just move into the work. I would like to be kept informed on how we are making out here. I am also interested in seeing any of the films.
